

Sharing photographs from tonight's Ball – we'd love to see them.

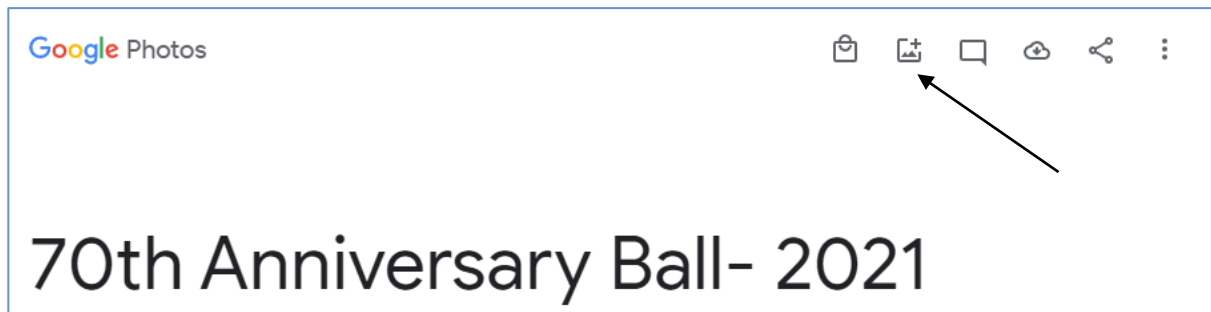

We have set up an album for the Ball on Google photos.

This will make it easy for us all to share pictures and videos and enjoy those others have taken. We would like to select a few for the gallery on our website too and send some photos to Head office / Cumberland News in the hope that they will publish something about the event.

The link is <https://photos.app.goo.gl/Vn4DRQ5S1DC5DFoM7>

We will also put the link on website <https://rscdscarlisle.co.uk/> on our Dances and Events page.

The link will take you to the album and you can just look at what is there. If you wish to add your own photos you will see an icon with a + sign along the top of the page (see figure). It really does seem quite easy. You can also delete photos, but only the ones you've added under the email address you accessed it from. It will automatically add the first part of your email address to each image you upload.

Note: -

- You don't need a Gmail account (email address) to view the album but
- You will need one to use it e.g. upload / delete photos

Only I (or those I share details with) can delete photos uploaded by others, re-order the photos or delete some if there is a lot of duplication for example.

You can forward the link to others using the share icon.
